About

I am a creative thinker who uses data to build solutions and drive change in my organization. I think it is not only important to create a simple solution but to enable others to create solutions for themselves. I am to share what I know with those around me and by working together create sustainable workflows, reports, and processes.

SQL, Business Analytics and +2 skills

Product Coordinator

Aug 2018 - Apr 2021 · 2 yrs 9 mos

Bentonville, Arkansas

Processed item changes for beer in 496 clubs during 2019 by creating a sustainable process that utilizes Alteryx workflows and Excel formulas to manage and execute item changes.

Improved accuracy and decreased time spent to implement price changes by creating an automated workflow using Alteryx.

Improved the On Time In Full (OTIF) metric for my category by analyzing vendor delivery data and adjusting scheduled delivery days.

Created and led Alteryx training for my peers, enabling others to build workflows that improve accuracy and save time.

Day to day I coordinate orders for more than 500 Sam's Clubs with about 500 vendors across the United States.
